Alexander Grappa presents this classic Italian spirit with artistry, ingenuity and a modern, elegant flair. Developed and introduced in 1987 by dynamic entrepreneur Sandro Bottega, this exceptional, award-winning family of grappas is produced by Distilleria Bottega, located in the heart of northern Italy’s scenic Veneto region and birthplace of grappa.

Alexander Grappas – highly refined, aromatic, smooth and naturally moderate in alcohol – are double-distilled in copper steam alembic stills. The entire range is packaged in sensational hand-blown bottles designed by Sandro Bottega and crafted by skilled master glassblowers in the tradition of the art-form developed in Venice in the 1400s.

Celebrated for its exceptional grappas, Distilleria Bottega also produces fine wines and excellent liqueurs, such as Petalo Il Vino Dell Amore, a delicately sweet sparkling wine. Other Bottega liqueurs include the deliciously decadent Bottega Gianduaia, the aromatic Bottega Limoncino and the award-winning Bottega Sambuca, another Italian classic.

With respect for the environment, Distilleria Bottega practices organic and sustainable farming, uses natural ingredients in packaging, and utilizes alternative sources of energy to heat and cool its buildings.
