Savour

Boissiere (BWA-see-air) Vermouth is an essential ingredient in countless classic cocktail recipes, recognized for its floral and herbal aromas and refined palate.

Boissiere's prized original blend, infused with select botanicals such as elderflower, chamomile and coriander, has remained a closely guarded secret since its inception nearly a century and a half ago.

With its exceptional character and sophisticated palate, Boissiere Vermouth can be enjoyed as an aperitif, neat, over ice with a twist of lemon or as a sophisticated long drink mixed with soda water, tonic or lemonade.
