

The background features a detailed, monochromatic illustration of several birds perched on thin, dark branches. The birds are rendered in a fine-lined, etched style. One bird on the left has long, pointed tail feathers. Another bird in the center has a long, thin beak. The overall composition is dense and artistic, with the birds scattered across the frame.

WINE OF CHILE

BRAND BIO

FAMILY WINEGROWERS SINCE 1976

Cantor

The small songbirds that inhabit our vineyards give rise to “Cantor”, a line of wines inspired by the nature and biodiversity of our vineyard estates in Chile.

Their characteristic melodious singing brightens our days. Cantor wines honor the joy that these small birds bring to the vineyards.

A wine from Louis Felipe Edwards Wines (LFE), a family-owned and managed winery committed to innovation and sustainability, with family values and traditions reflected in every bottle.

ABOUT THE WINERY

Cantor

ABOUT LOUIS FELIPE EDWARDS

- Founded in 1976
- The largest family owned and managed winery in Chile
- 3rd largest Chilean wine exporter
- Nearly 5,000 acres of estate vineyards
- Distribution in over 100 countries around the world
- The consistently high quality of LFE's wines and family values mirrored in each bottle are paramount to the winery's success and continued growth

THE EDWARDS FAMILY

Viña Luis Felipe Edwards began operations in 1976 when Luis Felipe Edwards Sr. returned to Chile after several years living in Europe. He painstakingly restored a former winery and estate on 130 acres in the prestigious Colchagua Valley.

Today, the winery remains under the active leadership of Luis Felipe Sr. while his children handle the day-to-day operations: sons Felipe and Ignacio share Global Sales and Marketing responsibilities while daughter Bernadita manages all Production; his sons-in-law Nicolas Bizzari and Eugenio Cox are Director of Winemaking and Vineyard Director, respectively.

VINEYARD ESTATES

LFE vineyard holdings of more than 4,940 acres (2,000 hectares) of prime vineyard land in three of Chile's premier growing regions. Each area benefits from ideal microclimates for growing a variety of wine grapes.

ABOUT CHILEAN WINE

- Chile averages just 110 miles wide – the narrowest country in the world – and is as long as the United States is wide at 2,600 miles
- With Pacific Ocean and the Humboldt Current to the West and Andes Mountains in the East, most viticultural areas get both maritime and alpine influences
- Micro-terroirs are abundant leading to an abundant diversity of wine styles

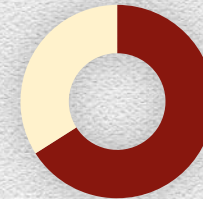

Colonial-era conquistadors & Spanish missionaries planted first vines

The only phylloxera-free country in the world

Today, there are 800+ wineries & over 11k producers

Nearly 340k acres under vine (137k ha), 66% of which is dedicated to red grapes

30% of all Chilean wine production is Cabernet Sauvignon: Chile produces 15% of the world's Cab
