PERE VENTURA TRESOR BRUT ROSÉ

Pere Ventura's wine producing vocation is rooted in a family tradition dating back to the 19th century. When Pere decided to found his namesake winery in 1992, he did so in honor of his ancestors. Pere's family heritage with Cava dates back to 1872, when his great grandfather, Manuel Montserrat Font, helped produce bottles of Cava in the Penedès region.

Today, the family tradition lives on at the Pere Ventura wine estate, located in the heartland of Cava in Sant Sadurní d'Anoia, Catalonia. Pere is the soul of the company - whose hand can be seen in each and every one of his Cavas as a seal of trust but also a commitment to respect for the environment and achieving the ultimate in quality.

As a member of the Wineries for Climate Protection initiative, Pere Ventura is fully committed to protecting the environment by reducing their carbon and water footprint, investing in renewable energy and biodiversity, and practicing sustainable agriculture.

PRODUCTION AREA

Country: Spain

Region: D.O. Cava, Penedès

GRAPE VARIETIES

100% Trepat

Grapes come from 20-year-old vines that grow on chalky, high elevation soils at 1,148 - 1,969 feet above sea level.

WINE PRODUCTION

All Pere Ventura Cavas undergo the "Traditional Method" of sparkling wine production, the same method used for Champagne. Grapes are hand harvested and de-stemmed before they undergo a first fermentation in stainless steel tanks at a temperature of 61°F to 64°F. The juice is then clarified and stabilized before undergoing secondary fermentation which takes place in the bottle. The wine is riddled, disgorged and the dosage is added before the bottle is sealed. The wine is aged 15 months on average to develop richness yet preserve freshness.
